B. Reading Comprehension (16 Marks)

Read the following text carefully , then answer the questions below

Dolphins are one of the smartest animals on Earth. They send messages to one another in many different ways. They squeak, squawk and use body language. They jump as high as six meters in the air, **slapping** their tails on the surface of the water and blowing bubbles. They can grow to be anywhere from 2 to 4 meters long. Each dolphin has a special whistle that is created soon after it is born. This whistle is used to know them personally, just like a human's name.

Dolphins also have a sharp sense of hearing. **It** is two times stronger than the humans' sense. They are very social and playful mammals, because they form friendships that last for many years hunting together and protecting each other.

These sea animals are fed on fish and shrimps. They are found in warm water all over the world. They live in shallow water close to the beach and far out in deep dark water. There are 37 types of dolphins around the world. They face a lot of problems by getting trapped in the garbage humans leave on the beach. It affects their health and sources of food.

a) Choose the correct answer from a, b, c & d: (6x2=12 Marks)

9. What is the best title of this passage?

- Dolphins' problems.
- Smart sea animals
- Strong animals
